The iSangean App enables remote control of the WFT-1Di running on your iPhone or iPod touch.

iSangean is the remote control app for Sangean Internet radios and media streamers for your iPhone or iPod touch. The app allows selection of Internet radio stations, selection and control of media for UPnP/DLNA music streaming from a local computer, server or NAS device, as well as control of DAB and FM radio and other functions (where these functions are present on the radio). The Now Playing screen provides radio station or media information with direct control of the radio volume.
